

SPRING WALK BINGO

INSPIRATION EDUCATION CONSERVATION
THE YORKSHIRE ARBORETUM

✓ Tick off the **rubbings**  that you collect and the things you see  and hear 

Can you **hear** a Greater Spotted Woodpecker drumming against an old tree to find food or a place to nest?

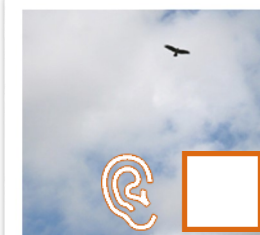

Old tree stumps and logs are a top habitat for fungus and beetles in woodlands.

Wood Anemone
"Wind Flower"

Can you **hear** the high-pitched call of a Buzzard in the sky?

Toppled tree roots.

Fresh bare earth is great for bugs in woods!

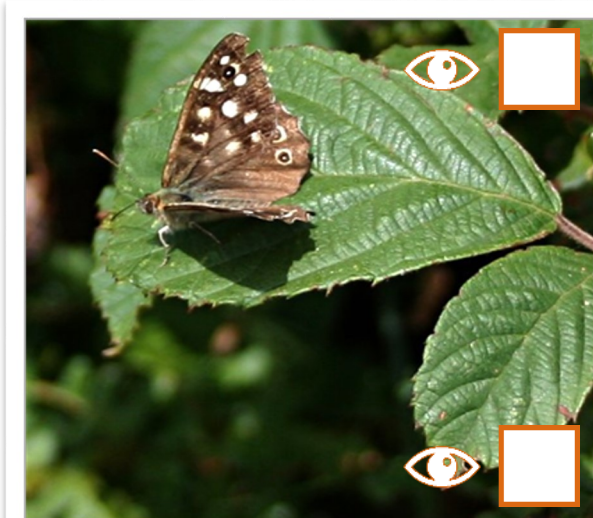

Use a crayon on its side with the paper on top to collect a bark **rubbing** in this box

☐

Did you **feel** any spongy pine needles under your feet anywhere?

Look for bramble leaves. Bonus points if you spot a Speckled Wood butterfly!

Spot this plant - Dog's Mercury

Listen for the Chiff Chaff. They call their name from high in the trees: *Chiff Chaff Chiff Chaff*. These warblers return in March from hot places like the Sahara.
